

# **JORDAN MISSION WORK**

## **Subject: Vaccines**

**No vaccines are required for Jordan, but here are our recommendations:**

### **Routine Vaccines that Most Already Have:**

**MMR Vaccine** (measles/mumps/rubella)

**DPT Vaccine** (diphtheria/pertussis/tetanus)

**Polio Vaccine**

### **Others Vaccines or Medicine Recommended:**

**Hepatitis A** - Recommended for all unvaccinated people traveling to or working in countries with an intermediate or high level of hepatitis A virus infection where exposure might occur through food or water. Cases of travel-related hepatitis A can also occur in travelers to developing countries with "standard" tourist itineraries, accommodations, and food consumption behaviors.

**Typhoid** - Recommended for all unvaccinated people traveling to or working in the Caribbean, especially if staying with friends or relatives or visiting smaller cities, villages, or rural areas where exposure might occur through food or water.

Please go to <http://wwwnc.cdc.gov/travel/destinations/jordan.htm> for more detailed information.
